Quanergy to Demonstrate Innovative LiDAR Solutions at Automate 2022

Transforming automation with industrial LiDAR Solutions

SUNNYVALE, Calif. – June 6, 2022 – Quanergy Systems Inc., a leading provider of LiDAR sensors and smart 3D solutions, will showcase the company's industrial LiDAR technology at Automate 2022 in Detroit, Michigan.

Quanergy's hardware and smart perception software technologies are combined to create the 3D LiDAR Flow Management platform, which enables sophisticated solutions for multiple use cases including Tag-Free Asset Tracking™ and Ground Truth Systems.

Quanergy experts will demonstrate the company's solutions at the show, offering insights into the efficiency improvements they provide to automated guided vehicles, autonomous mobile robots, bin-picking, and several other material handling and logistics applications.

Automate is the largest and most inspiring showcase of automation in North America. To register (attendance is free,) go here: <https://www.automateshow.com/trade-show/why-attend>.

Where: Booth #5245, Automate 2022, Huntington Place, Detroit

When: June 6 – 9, 2022; 10 am - 5 pm EST

Vistors to the booth will learn:

- How Quanergy's LiDAR sensors enable reliable collision avoidance and smart navigation
- How Quanergy's 3D QORTEX Perception Software underpins this technology
- How 3D LiDAR is making industrial processes more efficient
